# Nuance imaging and dictation software

**Nuance leads the way in Optical Character Recognition (OCR), Voice Recognition and Document Management software.** Nuance is continually improving their software and have now released an updated version of their PDF suite of products.

Divided logically into suites, the following pages include the OCR suites, PDF Converter range, Document Management and Voice Recognition. Each section varies in the solutions it offers to individual users. Take the time and read how Nuance software can help you and your organisation save time and increase productivity.

## OCR software

OmniPage, the world's number one OCR Software, saves time and increases productivity like never before. It harnesses the power of three engines, allowing it to deliver the most accurate document conversion available.

### OmniPage 17 – Standard, Professional and Multi-Seat Licences

Never retype a document again!

**OmniPage** – is the most precise way to convert paper and PDF files into your favourite PC applications. Through OCR technology it allows you to quickly turn paper and PDF files into editable electronic documents that look just like the original – complete with text, tables and graphics.

**OmniPage Professional** – The powerful OCR engines combine with advanced workflow technology to automate all your conversion needs. Whether you want to make paper digital or create batches of PDF files, OmniPage is up to the task with superior accuracy (up to 99%) and formatting.

OmniPage is the one product you need to convert, edit, archive and share all your paper and PDF documents.

Description	Version	Package	Nuance code	Media platform	Part number
OmniPage Professional 17 Full product	Minibox	Box	E709A-G00-17.0	Win	<b>040L16600</b>

#### FEATURES

- Improved accuracy on character attributes, font matching and word accuracy
- Now maintains headers and footers, titles and font recognition when formatting
- Now supports digital camera captured documents (.jpg)
- Now supports Microsoft® Word 2007
- New productivity features to improve workflow and usability

# Paper management software

The Nuance PaperPort software incorporates the PDF software functionality which is available in the PaperPort Professional range. PaperPort has never been easier to use and is now faster and more productive.

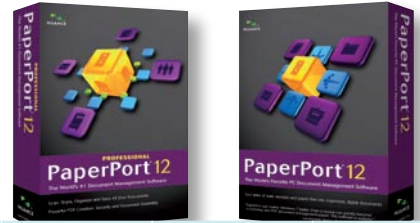

## PaperPort 12 – Standard, Professional and Multi-Seat Licences

Turn paper into manageable, organised digital documents

**PaperPort 12** – produces perfect scans every time with the push of a button.

Your documents are displayed as small thumbnails on a unique visual desktop for fast browsing. Using the All-in-One Search™, looking for paper or digital documents has never been easier. Save time and have the security of knowing that important documents and photos are always easy to find.

**PaperPort Professional 12** – is the most productive way to scan, organise, find and share photos, paper and electronic documents. It combines the efficiency of document management with the convenience of scanning enhancement tools and the power of creating PDF files, to bring a new level of operational proficiency to your organisation. The visual document desktop allows you to browse and assemble documents with drag-and-drop ease.

Description	Version	Package	Nuance code	Media platform	Part number
PaperPort 12	Minibox	Box	6809A-G00-12.0	Win	<b>040L89610</b>
	Gov't, Minibox	Box	6809A-F00-12.0	Win	<b>040L89612</b>
	Academic Minibox	Box	6809A-F00-12.0	Win	<b>040L89619</b>
PaperPort Professional 12	Minibox	Box	F309A-G00-12.0	Win	<b>040L89615</b>
	Gov't, Minibox	Box	F309A-F00-12.0	Win	<b>040L89617</b>
	Academic Minibox	Box	F309A-F00-12.0	Win	<b>040L89620</b>

**Note:** Nuance's Volume License Program pricing is available with the OmniPage, PaperPort, PDF and Dragon NaturallySpeaking product ranges. It is the cost-effective and efficient way for organisations to procure products in large quantities (minimum of ten) while receiving the support and services required.

# PDF Converter

## PDF Converter – Better PDF for Business™

Instantly convert PDF files into Microsoft Word and Excel documents

PDF Converter turns PDF files into Microsoft Word or Excel documents that you can edit – complete with text, graphics, columns and tables intact. Millions of PDF files are reviewed every day and PDF Converter gives you the ability to unlock and use information usually out of reach.

**PDF Converter** is a plug-in, that gives you superior speeds and ease of use from within your favourite applications – Microsoft Word or Excel, Outlook®, Windows®, Explorer, and Internet Explorer.

**PDF Create!** is the fast and easy way to make secure and reliable PDF files from any PC application. With the click of a single button, it delivers compact, high-quality PDF files that can be shared with anyone.

**PDF Converter Professional** gives you everything you need to create, convert and edit PDF files – within a single, easy to use application.

Description	Version	Package	Nuance code	Media platform	Part number

It is the cost-effective and efficient way for organisations to procure products in large quantities (minimum of ten) while receiving the support and services required.

## Key benefits

### EASY

Converting PDF files into Microsoft Word, Excel and Powerpoint couldn't be any easier. Simply select the PDF file you want to convert and let PDF Converter quickly re-create your files as a Word or Excel document.

### FAST

Get the job done in minutes, not hours or days. PDF Converter eliminates the need to re-key and re-format PDF documents, saving you time and money.

### ACCURATE

Your Word or Excel documents will maintain the same formatting, text, tables, and graphics as the original PDF file.

### POWERFUL

Now you can do more than view PDF files. PDF Converter Professional opens PDF files downloaded from the web, received as e-mail attachments or located on your PC.

# Voice recognition software

Dragon™ NaturallySpeaking® is the market leader in voice recognition software, allowing the creation of documents as you speak. The software is extremely accurate and is up to three times faster than typing. It never makes a spelling mistake – in fact, it actually gets smarter the more you use it.

## Dragon NaturallySpeaking

The world’s best-selling speech recognition – create letters, reports and emails simply by talking

**Standard** works with your favourite Windows-based applications and includes special commands for Microsoft Word, WordPerfect and Corel. It writes letters, messages and reports by talking. It’s easy to revise and format documents and to correct your work as you go. Use your voice to surf the net and navigate web pages.

**Preferred** lets you be more productive in an office environment. Speak and your words appear on the screen in memos, letters, reports and email. Dictation shortcuts make it a snap to create documents. Use dictation playback and Text-to-Speech for easy revising and proofreading. Listen to incoming emails and documents read aloud. Search the web by speaking URLs and links. This full-featured speech recognition solution lets you create dictation shortcuts to automate routine paragraphs.

**Mobile** contains all the features of ‘Preferred’ and allows you to talk into a digital recorder (included in the package). Just plug this into your PC for automatic transcription. Record in traffic, on a plane or on the weekend, then simply plug the recorder into your PC to create a document.
