

# GX Print Server 2 for the Versant™ 3100 Press

Tough, dependable print server for professional printing

## SUPERB SPEED AND IMAGE QUALITY

This print server is ideal for corporate offices and quick-print environments as well as professional printing in which quality and speed are needed to satisfy a wide range of requirements. GX Print Server 2 is powered by Fuji Xerox patented technology to deliver high resolution at high speed and features APPE (Adobe® PDF Print Engine) and CPSI (Configurable PostScript® Interpreter), 1200 x 1200 dpi resolution, 10-bit colour and straightforward spot colour management.

The developed architecture produces an intermediate data format that reduces RIP load while a RIP Accelerator Board maintains image quality through high-speed, lossless compression. In addition, fast serial transmission accelerates processing of heavy image data.

Also included is Full Width Array technology featuring automated colour calibration and profiling, digital smoothing technology for sharper text and lines, and 3D Calibration for highly precise colour management.

## VDP SUPPORT FOR EXPANDING PRINTING SERVICES

Improve the competitiveness of your business by offering variable data printing (VDP) capability. GX Print Server 2 for the Versant™ 3100 Press is fully compatible with PPML, and PDF/VT open-standard VDP formats as well as scalable turnkey products FreeFlow® VI Compose, VIPP®.

## REALISES SMOOTHER GRADATION CORRECTION

The gradation realised by 10-bit rendering is expressed smoother. Additionally, the gradation correction function results in excellent gradation for more natural, smoother reproduction.

## EASY, INTUITIVE USER INTERFACE

The user interface ensures fast, easy job setup and operation for any user. Printer functions, job status, error messages and other vital information can be seen at a glance on the print server display. The end result is smoother operation better accuracy.

## SEAMLESS INTEGRATION WITH A VARIETY OF TECHNOLOGIES

GX Print Server 2 for the Versant™ 3100 Press provides an excellent collaborative platform to help expand your printing business. The combination with FreeFlow® Digital Workflow Collection automates and maximises your workflow to deliver more job at a shorter turnaround.
