Note: Products for sale may differ according to country or region. For more information, please contact the Fuji Xerox office or authorized dealers in each country/region.

Note: Simple (Counter Collection) is available only when [Local Authentication] is selected in [Authentication Settings].

Note: The conditions above are satisfied when the device is equipped with a network port (Printer Kit) and is capable of TCP/IP communication.

Note: Subscription to EP-BB MFD management service is required to start the Device Log Service.

Note: Our customer engineer will make the necessary settings for EP-BB on the device unit based on customer demand.

Note: Supported models and product specifications are subject to change due to improvements without prior notice.

Note: Multifunction Device Linkage Tool is required to view usage on devices.

*1: Models with 2 GB memory and Controller ROM require ver.1.104.17 or higher.

*2: Controller ROM should be ver.1.0.2 or higher.

*3: Extensible Customization Kit is required. Other options may be required for installation depending on the model.

*4: N-up accounting is available for Detailed Notification (Job Log Collection) but not for Simple Notification (Counter Collection).

*5: External Access Kit is required. Not available in the network environment where proxy authentication is performed via a proxy server.
